

SF90

SF90 – Seal Expansion Joint

Description

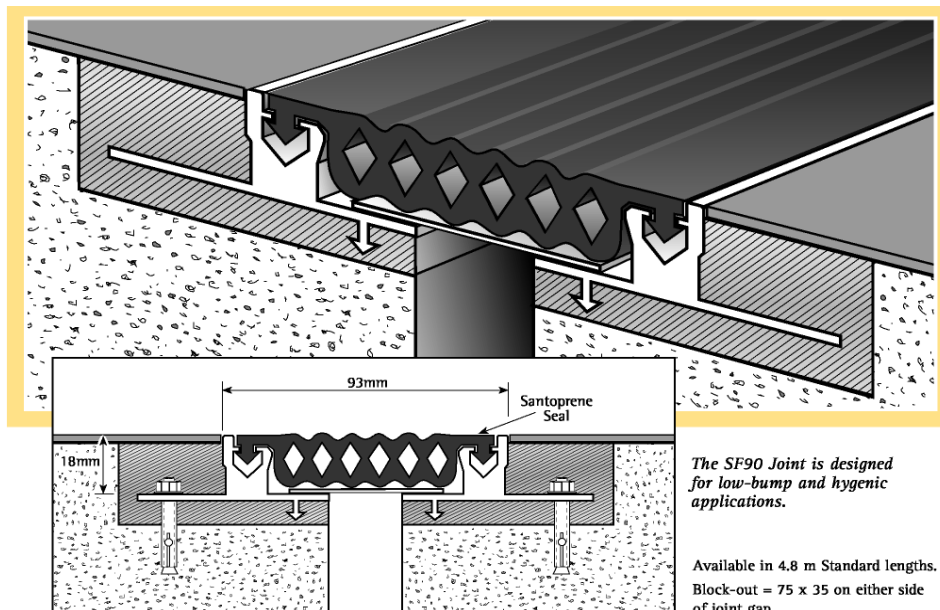

The Miska SF90 Seal Joint is a unique new joint system developed for areas where a high degree of floor hygiene is required.

Features

- ◇ A completely sealed system.
- ◇ Resists moisture, chemical attack and the build up of dirt and pathogens.
- ◇ The joint is purpose designed for applications where small movement ranges exist ($\pm 15\text{mm}$).
- ◇ Will also accommodate limited vertical movement (0-5mm).
- ◇ Will provide a smooth, bump-free ride over the joint for light pedestrian traffic, wheelchairs, light trolleys, emergency stretchers and other sensitive equipment.
- ◇ Installed flush with the surrounding level and is normally carried out at, or just prior to, the laying of the floor finish.
- ◇ A block-out on either side of the joint gap must be provided for when the slabs are first poured.
- ◇ The Santoprene seal can be coloured to match any floor finish and is easily replaced if damaged or worn.
- ◇ Available in 4.8 metre lengths.

Uses

- ◇ Hospitals
- ◇ Clean rooms
- ◇ Food preparation areas
- ◇ Child care facilities
- ◇ Laboratories

SF90 Fully Sealed and Colour Matched Joint
